Setting Up Spectrum Voice Service

1. Connect the coax cable
   a. Connect one end of the coax cable to the cable wall outlet and the other end to the modem.
   * If a Spectrum receiver is connected to the cable wall outlet, see the instructions below.
   Not all cables will be used during installation.

2. Connect the power cord
   a. Plug the power cord into the modem, then plug the other end into an electrical outlet.

3. Connect the modem to your phone
   a. Connect one end of the phone cord to your phone and the other end to port 1 on the modem.
   i. Make sure your phone is plugged in to an electrical outlet.

4. Activate the modem
   a. Use your smartphone to go to activate.spectrum.net.
   b. On your computer, browse to activate.spectrum.net.

If your Spectrum receiver is connected to a cable wall outlet

5. Disconnect the Spectrum receiver’s coax cable from the wall outlet. Connect one end of the short coax cable to the outlet in the wall and the other end to the side of the splitter with the single connection (IN).
6. Connect one end of the Spectrum receiver’s coax cable to one of the (OUT) connectors on the splitter. Make sure the other end is connected to your Spectrum receiver.
7. Connect one end of the long coax cable to the other (OUT) connector on the splitter and the other end to the modem.
